

NOTE .

(1) It will be observed that, with the exception of the last two lines of Plate V. the lines of music are tied in couples, of which the upper line is devoted to beats in full notation (as far as space will permit) and the lower lines to the cyphers of those beats.

(2) The figures between the coupled lines with the exception of those referring to time, such as "3" for triplets, refer to paragraphs in the explanatory text on the new notation.

(3) Where two or more cyphers are given, the last one or ones refer to improvements that have been suggested since the issue of the first edition.

(4) A horizontal line under a cypher denotes that its time value is 1 of what it would be without this indication.

(5) In these plates the Editor has endeavoured to give in full notation the notes of every cypher that a close study of the published "Ceol Mor" has enabled him to discover, and with the Keys at the side of the page there should now be no difficulty in translating any cypher used.
